

Purpose: This guide reviews commonly used terms, AET menu and financial terms. This list is also offered in quiz form and designed to be a classroom educational resource that also assist students in learning to use The AET.

I. General Agricultural Education Terms

Terms	Definition & Examples
Supervised Agricultural	A project completed (a) outside of the normal class time, (b) related to
Experience (SAE)	agricultural courses and (c) supervised. Examples include a wildlife research project,
	employment at farm store or show animal experience.
Entrepreneurship SAE	A project that (a) requires monetary investment for the (b) potential to gain
	a profit. (Revenue greater than expenses). Examples include a service or supply
	business, show animal or breeding animal project.
Placement SAE	A project that is a job experience, either paid or unpaid. Examples include
	working at a dairy, farm store or other related employment in an agribusiness.
Research SAE	A project that requires a (a) research question, (b) completed review of
	research already complete, (c) design and complete the experiment and (d)
	develop a final report of results and findings. Examples include horticulture plant
	growth in different climates, testing building material strength or other research related items.
Exploratory SAE	An unpaid project that involves gaining new knowledge or learning a new
	Skill. Examples include training for a FFA competition team or attending an educational
	training seminar.
Improvement SAE	An unpaid project that is directed to improvement of a physical item.
	Examples include restoring a building or redeveloping a garden.
Supplemental SAE	An unpaid project that is directed to supplement another SAE project.
	Examples include becoming a certified welder in order to supplement your agricultural
	mechanics SAE or artificial insemination (AI) certified to support animal breeding SAE.
Program of Activities	Calendar Events of an agricultural education program that are (a) targeted to
(POA)	a program's objective, (b) relate to the program's mission statement and are
	(c) planned with measurable goals used in measuring results. <i>An example</i>
	includes hosting a educational ag-day with elementary schools, which relates to the public
	relations objective of the program.

II. AET Menu Terms

General AET Terms& Related Icons

(If applicable)	Definition & Examples
AET Experience	Manages a Supervised Agricultural Experience (SAE) project, with special
1 1 1 1 1 1 1 1 1 1	attention given to the (a) time and (b) size of the project. Examples include one
	head of a Show Steer for 2013, Murphy Farms Employment or a Plant Growth Research Project.
AET Profile	Basic student (a) contact information, (b) courses in agricultural education, (c)
	resume accomplishments and (d) leadership positions.
AET Journal	Student invested time for (a) courses, (b) AET Experiences, (c) FFA activities
	and (d) community service.
Review AET Journal	To review and edit any type of journal entry. An example includes reviewing FFA
*	competition entries to review if a competition entry has been recorded.
AET Experience Journal	Time invested in AET Experiences, also referred to as a student SAE. Recording
A	time spent in a research SAE project such as on September 5 th investing two-hours reviewing
	previous research.
AET FFA Committee	Time invested in FFA committees. <i>An example is student time working within the public relations committee of the FFA chapter.</i>
Journal 🧆	relations committee of the FFA Chapter.
AET FFA Officer Journal	Time invested as an elected FFA officer. Examples are officer meetings, chapter
	meetings and other time obligations.
AET FFA Competitions	Time invested in and the level for FFA competition events. Examples are
Journal 🍑	competing in parliamentary procedures contest at the Area level and recording the time for the
	event of one-hour.
AET FFA Other Events	Time invested in and the level FFA conferences or other events. Examples are
Journal 🤏	attending regional FFA conference, state FFA leadership camp or national FFA meeting.
AET Community	Time invested in service events that support a student's local community.
Service Journal 強	Examples are community projects such as roadside cleanup and community garden.
AET Finances \$	Financial values related to agricultural education such as (a) beginning
	inventory, (b) paychecks, (c) cash and (d) non-cash transactions, (e) loans, (f)
	capital items and (g) personal transactions. Examples are beginning inventory,
	expenses and income related to an AET Experience, purchase and use of capital items, and personal financial entries.
AET Finance	Review and edit any financial entry. Example use is to review previously entered
Transaction Listing	transactions, search and replace entries that are in error.
*	
AET Student Portfolio	Save images or files for later access or use. Examples are importing into FFA
	proficiency applications, adding to AETweb or access.

III. Financial Terms

AET Financial Terms & Related AET Icons

(If applicable)	Definition & Examples
Current Inventory	The inventory value of AET Experiences (SAEs), which is based on the
	cost of items used in the project. Student has a poinsettia project and purchases \$400 in plants, \$100 in pots and soil, which gives the student a current inventory of \$500.
Non-Current Inventory	The inventory value of items that is (a) high in monetary value and have
(Capital Items)	a (b) long-term use value in supporting AET Experiences (SAE projects).
8	Also referred to as capital items. Examples are tractors, show box, stall equipment and other related items that are used to support several projects across several years.
Beginning Inventory	Items before student's first day of ag education, and includes (a) AET
	Experience expenses, (b) Non-current inventory items and (c) cash. <i>An example is items for a show animal project such as the animal, feed or supplies, capital items and cash on hand prior to the first agricultural education class.</i>
AET Market Adjustment	AET current inventory adjustment used when the normal cost value of
**	AET experiences (SAEs) is not accurate. An example is on December 31, a breeding operation with offspring still on females has an AET cost value of \$500, but the market value is more accurate at \$1500. A market value of \$1,000 would create an increase in current inventory value.
Cash Expense	Purchased cash items to be used in an AET Experiences (SAEs) to
(\$)	supplement or manage the projects growth. Examples are inventory purchased for resale, feed, supplies, rent and other cost needed to develop the project.
Capital Item Manager (Non-	Purchase, sell or record the usage of capital items. Examples are buying new
current inventory)	breeding animals, show tack, lawn mowers, barns, land, trailers and other high value
	items.
Capital Item Salvage Value	The estimated sales price of capital items once usage is complete or the
	asset has served the intended purpose for the current user. <i>An example is a laptop cost value of \$800, but will be sold in 4 years for an estimated \$650. The \$650 is the estimated salvage value.</i>
Capital Item Useful Life	The estimated number of years the item will perform the intended use. An example for breeding animals is usually 5 to 10 years, equipment 10 years and buildings usually have a 20-year useful life.
Depreciation Expense	Represents an annualized cost of a capital item. Depreciation is a non-
	cash transaction that is calculated from the (a) cost of the capital item,
	(b) minus the salvage value and (c) divided by the useful life of the item. An example is a laptop costing \$800, salvage \$650 and useful life of 10 yrs. $=$ \$15 annual depreciation cost: (\$800-\$650) /10 = \$15 depreciation per year
Capital Item Usage	The annual percent allocation of depreciation cost from a capital item to
	each AET Experience (SAE). An example is a laptop in one year is 50% for breeding beef and 50% for a research project.

Cash Income	Cash earned from AET Experience project, which is typically referred to
(\$)	as income or sales. An example is selling a show animal, collecting rent from an
	equipment lease or collecting cash to fund a research project.
Non-Cash Transactions	Income or expense transactions that do not involve cash, but rather a
\$☆	trading or bartering for services. All values are usually recognized as
4	market values. An example is selling hay from a hay production project to a show
	animal project. There are many types of specific non-cash transactions.
SAE Labor Exchange (Non-	Trading related project labor for items used in developing an AET
cash)	Experience (SAE) versus purchasing cash items. An example is working for a
å	dairy business in exchange for feed of a dairy project.
∧ ⇒	
Non-SAE Labor Exchange	Trading non-related project labor for items used in developing an AET
(Non-cash)	Experience (SAE). An example is a student working in a family day care center for
¢.	the expenses to support a production rabbit project.
^	
Non-cash Transfer	Trading items between AET Experiences (SAE) and recording income to
 1	one project while at the same time recognizing an expense to another
	project. An example is raising show pigs from a sow operation (income) and
	transferring new prospects into a new show pig project (expense) for the current year.
Gift (Non-cash)	Receiving a gift of expense related items used in developing an AET
	Experience (SAE) versus purchasing the items with cash. A student
	receiving a free set of flowers to arrange and sell as a floriculture project.
Used at Home (Non-cash)	Recognizing the non-cash sale to a student's family and usually is valued
	at a typical market price. An example is a student with a poultry project that sells
	their remaining chickens to family, but collects no cash or exchange for the sale.
Transfer to a Capital Item	Relates to replacing breeding females into a breeding operation from a
(Non-cash)	current AET Experience project (SAE). An example is have a project for a show
-	breeding goat, that is not sold but rather retained as a breeding female in a student's
I H	breeding goat SAE. This is value at usually a normal market price.
