

# Clinical Procedures Practicum

## APPLYING A STANDING WRAP ON A HORSE

Participants must talk through practicum steps with judge.

Criteria	Points Possible	Points Earned
The student assembles the correct material for applying a standing wrap. (No-bow wraps aka quilts and standing wrap.)	10	
The student places the edge of the first layer along the inside of the cannon bone and wraps ensuring they do not create any restriction of the joints above or below the wrap.	10	
The student continues around the lower leg of the horse making sure to apply even pressure with no wrinkles and keeps the proximal and distal edges of the wrap even.	6	
The student starts the next layer halfway down the leg, in the same direction as first layer, and ensures the wrap is even and lays flat.	6	
The student pulls the wrap snugly over the cannon bone and continues to wrap distally applying steady and even pressure.	6	
The student overlaps the bandage evenly, so no pressure points are created.	6	
The student leaves ½" of the first layer showing when they reach the fetlock then continue to wrap the limb proximally.	3	
Once the student reaches the proximal edge, they leave ½" of the first layer showing and wrap down the leg until the wrap can be secured with the Velcro strap.	3	
<b>TOTAL POINTS</b>	50
